

## Park Wellstate Kamogawa

A new senior living residence in the scenic Kamogawa, surrounded by the sea and mountains. The design scheme of the landscape - the layering sea and mountains surrounding the site, the difference in elevation of the ground that overlaps visually and spatially, and time that transforms the surrounding environment, was reflected and developed into the art.

Project Name  
Park Wellstate Kamogawa

Completion  
September, 2021

Owner  
Mitsui Fudosan Residential Co.,Ltd.

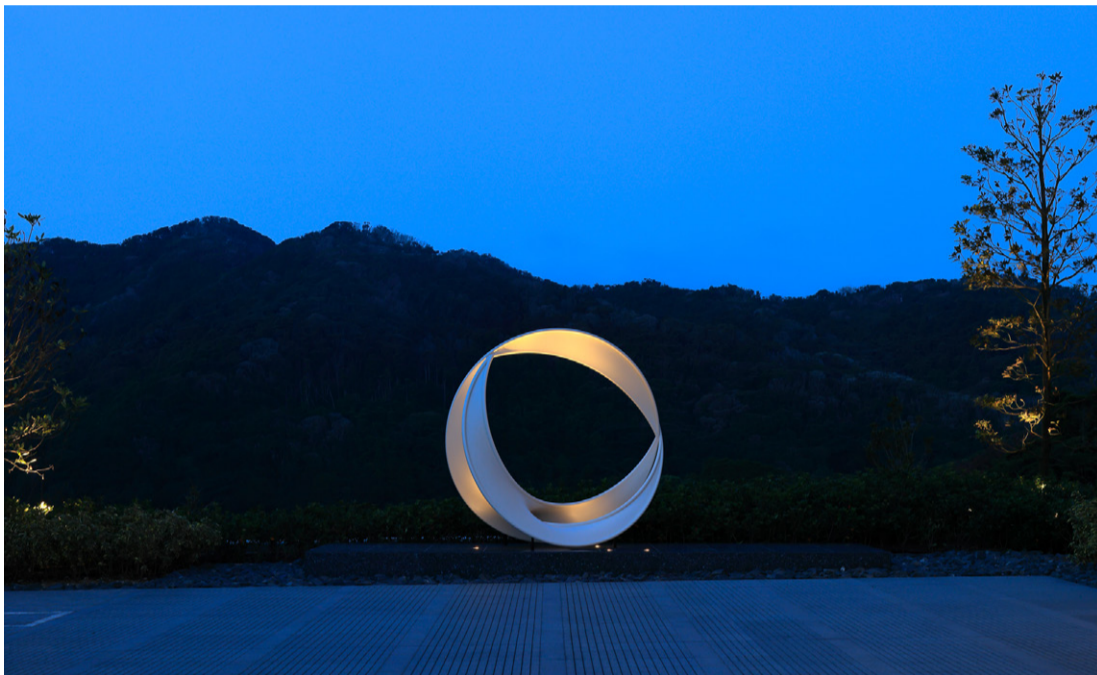

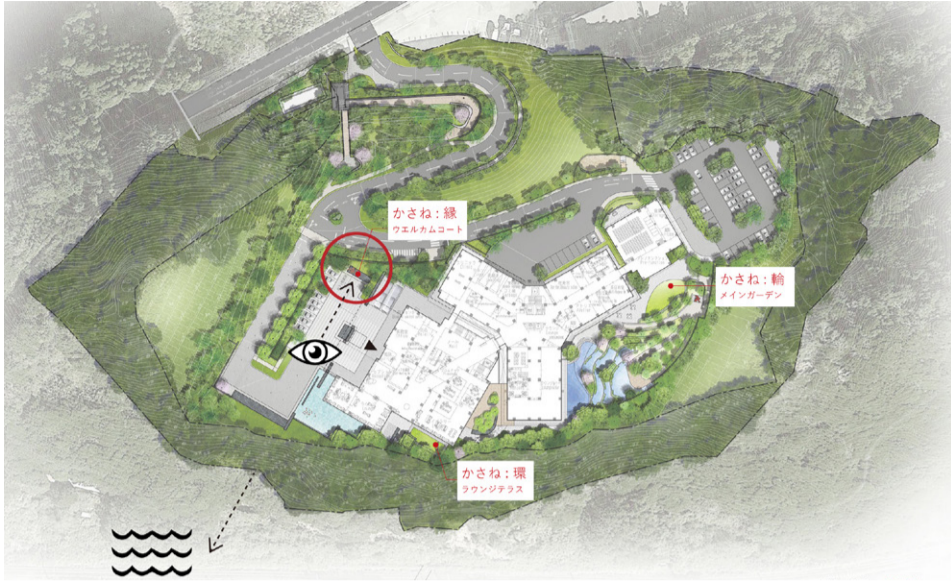

Landscape Design  
SWA Group (US)

As the art nestles in the landscape, as the newly designed landscape returns to nature, as nature and building coexist, and as people connect: the "circle" overlaps with the scenery of Kamogawa to express the uninterrupted continuity and eternity of life and nature.

# Fate

The art "Fate" of the Welcome Court sits on an axis drawn to connect the surrounding mountains and sea. The circular central hole captures the ever-changing natural scenery like a picture frame and seizes it in the art.

# Circle

"Circle," at the center of the Main Garden, admired from every angle, creates a centripetal force. The art becomes the "heart" of the new landscape and, with the stream of people serving as its "blood," it brings to light the "circle" of connections between people.

# Ring

The art piece "Ring" in front of the library is like a single flower vase displayed in a tea ceremony room that adds grace to the space. It is the "ring" of energy that connects the interior and exterior spaces.

Beautiful scenery, time, and connections with people are often unnoticed and taken for granted in our daily lives. We hope to contribute to discovering true art by capturing these transient moments.
